

Well Dressing in the Cemetery

8-15th September 2018 at the Bottom Entrance to the Cemetery
Hady Hill, Chesterfield S41 0DZ

While Chesterfield displays its well dressings in the town centre we will have our own dressing near the bottom entrance to the cemetery where it is believed there was a well. The design will be based on a gravestone symbol using the suffragette colours of green, white and violet. Do come and see our offering for this age-old custom unique to the Peak District and Derbyshire when communities would dress wells to give thanks for fresh water supplies. We are lucky to have some very skilled and hard working well dressers among our Friends.
