

Bat Walk in Spital Cemetery Thursday 16th May 2019 9-10pm

This is a wonderful chance to find out about some of the winged visitors to the cemetery when the sun goes down and they come out to hunt for insects. Sally Hyslop will be leading a Bat Walk in Spital Cemetery and for a short way along the Rother and Hipper Rivers. Booking is essential as numbers are limited. Please email thefriendsofspitalcemetery@gmail.com to book.

We will meet at the Tool House (53.232169, -1.415337) which is a short distance inside the cemetery from the top gates (53.232770, -1.414984). Parking is available on Cemetery Road and inside the cemetery along the avenue of lime trees which lead from the Top Gates to the Chapels. Please wear sturdy shoes. This walk is free but donations to the work of the Friends of Spital Cemetery would be gratefully received. Refreshments will be available.

Children are welcome, but must be accompanied by an adult. An event as part of National Cemeteries Week

Sally is the Community Engagement Officer with the Don Catchment Rivers Trust Hidden Heritage Secret Streams Project. They are currently doing amazing work cleaning up and helping to celebrate the Rother, Hipper and Holme Brook that play a vital role for wildlife in our town and were an important source of power to the industry on which Chesterfield was built.
